REQUEST FOR RECONSIDERATION OF A
REQUEST FOR CERTIFICATE OF CORRECTION

In accordance with 37 C.F.R. § 1.322, and in consideration of the letter from the Certificate of Corrections Branch dated January 17, 2006, it is hereby requested that the inventors' names and citizenship be corrected on issued U.S. Patent No. 6,893,055 B2.

On October 4, 2005, a request for the issuance of a Certificate of Correction under 37 C.F.R. § 1.322 in the above-identified patent was filed. Two (2) copies of PTO Certificate of Correction Form PTO/SB/44 identifying errors on the face of the issued patent were enclosed. It was alleged that the errors in the patent occurred through the fault of the Patent Office, as clearly

disclosed by the records of the application which matured into this patent, and thus no fee was required.

Applicants can show that on February 11, 2004, Patentees filed a Supplemental Declaration in U.S. Application No. 10/611,428 to correct the names and citizenship of the inventors, which were inaccurately identified in the originally filed Declaration (submitted November 13, 2003). See the attached copies of the Supplemental Declaration and a Supplemental Assignment, with corresponding date-stamped postcards, which were filed on February 11, 2004. It appears from the public PAIR image file wrapper system that the Supplemental Declaration was not scanned or recorded by the United States Patent and Trademark Office (PTO) docket clerk - a fact that Applicants have just learned. However, the Supplemental Assignment was recorded because Applicants received a Notice of Recordation of Assignment from the USPTO dated August 10, 2004 (copy enclosed). Applicants respectfully submit that the resulting errors were the result of the PTO's failure to record the attached filings. Applicants further request that these filings be entered into the record.

In accordance with 37 C.F.R. § 1.67(a) and M.P.E.P. § 603, Patentees respectfully assert that a later filed Supplemental Declaration supplants the information of the originally filed Declaration, and thus the Patent Office would have used the Supplemental Declaration if it had not misplaced it to generate the title page information for the granted patent.

37 C.F.R. § 1.67(a) states that "(a) The Office may require, or inventors and applicants may submit, a supplemental oath or declaration meeting the requirements of § 1.63 or § 1.162 to correct any deficiencies or inaccuracies present in the earlier filed oath or declaration."

Attorney Docket No.: 041463-5033
Application No.: 10/611,428
Page 3

Applicants respectfully submit that the Supplemental Declaration filed on February 11, 2004 met all requirements of 37 C.F.R. § 1.63 and corrected the above-mentioned inaccuracies recorded in the November 13, 2003 Declaration. Thus, the Certificate of Correction should have been granted.

Therefore, Applicants respectfully request careful reconsideration of our Request for a Certificate of Correction, and immediate issuance of same. If there are any other fees due in connection with the filing of this request, please charge the fees to our Deposit Account No. 50-0310.

Respectfully submitted,
